S SERIES

FIXED IP CAMERA
Powerful Analytics Made Simple 2MP 8MP

VIVOTEK Supreme fixed IP camera provides powerful analytics – accurate event notification and attribute extraction that significantly improves the investigation efficiency – all achieved effortlessly. The camera delivers exceptional color image quality at low light under great bandwidth control. Modular design simplifies the deployment and configuration.

POWERFUL ANALYTICS

SELF-OPTIMIZATION
No perspective correction or analytics settings. Self-calibration allows the camera to learn the scene and calibrate the algorithm for the optimal people and vehicle analytics result.
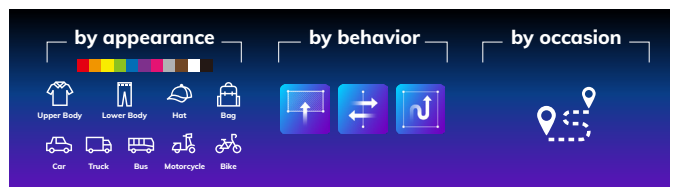

NO CONFIGURATION
With VIVOTEK network video recorder and video management system, Deep Search is instantly available with no plugin or module installation.

ACCURATE & PROACTIVE EVENT PREVENTION
With Smart VCA, an AI-based video analytics algorithm, the camera is immune to common false alarms such as foliage and insects. It provides proactively action paired with audio speaker broadcast or PTZ tracking using Camera Link.

DEEP SEARCH

by appearance — by behavior — by occasion

Upper Body | Lower Body | Hat | Bag
Car | Truck | Bus | Motorcycle | Bike

Powered by Vision Object Analytics, cameras extracts people and vehicle attributes in real-time. This turns the video investigation effort from hours into seconds, finding the subject person or vehicle in matter of seconds.

INSTALLATION-FRIENDLY AND ROBUST

MODULAR INSTALLATION

Modular design simplifies the installation to 3 steps, saving in both time and expense and allowing the user to focus attention on service and upgrades. Modular mounting plate eliminates the risk to damage the camera during installation.

ADJUST ON-THE-SPOT

Featuring Wi-Fi wireless access with smartphone or laptop, the view angle can be easily adjusted during installation.

WEATHER & IMPACT-RESISTANCE

Weather-proof IP66, IP67, IP6K9K

Corrotion-proof NEMA 4X

Vandal-proof IK10+

Heat resistance -50 to 60c

SUPERIOR IMAGE; LOWER BANDWIDTH

Supreme-series Fixed IP Camera

Previous generation

VIVOTEK Supreme fixed IP camera delivers a significant advancement in image quality while maintaining low bandwidth usage. The camera is equipped with a ½-inch sensor size, wide aperture, and WDR Pro II, making it ideal for capturing high-quality images in low light and high contrast conditions. Powered by industry-leading Smart Stream III compression technology, it reduces bandwidth usage by up to 80%.

SECURE AND TRUSTED

CYBERSECURITY

Signed Firmware

VIVOTEK's signed firmware requires a digital signature in the firmware and verification of the signature by VIVOTEK, thereby ensuring that users can trust the firmware has not been tampered with.

Secure boot

Secure boot is a mechanism that protects the firmware of the product installed. During the boot up process, secure boot blocks unauthenticated or tampered code.

ONVIF Compliant

Supreme-series fixed IP cameras are ONVIF profile S, G, and T compliant. This ensures interoperability with other video management system and simplifies system integration and management.

Secure VADP

VIVOTEK Application Development Platform (VADP) is an open platform to add applications on VIVOTEK cameras. Secure VADP with digital signature and encryption makes it safer and reliable for 3rd-party integration.

Trend-Micro IoT Security

In collaboration with Trend-Micro, TMIS is a security feature that comes built-in with VIVOTEK cameras. It protects the camera from online threats, including malware, viruses, and hacking attempts.

NDAA Compliant

VIVOTEK Supreme series cameras do not use or deploy critical components by NDAA banned vendors, and therefore are NDAA compliant. These products will be included in VIVOTEK's GSA contracts and are recommended for US Government applications that are subject to the NDAA.

ORDERING INFORMATION

DOME

FD9365-EHTV-v2
Outdoor, 2MP at 60fps, 2.8 – 11.4mm, WDR Pro II, 50m IR
Part number: VIO100B04100

FD9391-EHTV-v2
Outdoor, 8MP at 30fps, 2.8 – 10.3mm, WDR PRO, 50m IR
Part number: VIO100B04200

BULLET

IB9365-EHTV-v2
Outdoor, 2MP at 60fps, 3.5 – 11.4mm, WDR Pro II, 50m IR
Part number: VIO100B03400

IB9391-EHTV-v2
Outdoor, 8MP at 30fps, 3.2 – 10.3mm, WDR Pro, 50m IR
Part number: VIO100B03500

SOFTWARE OPTIONS

Restricted Zone Detection
Video analytics software for perimeter defense with higher accuracy than rule-based analytics.
Part number: VIO719001300

Parking Violation Detection
Video analytics software for detecting vehicle parking violation.
Part number: VIO719001400

ACCESSORIES

AM-21O
L-shape bracket
Part number: VIO909B00100

AM-10H
Recessive mount
Part number: VIO900073500

AM-71G
Conduit box
Part number: VIO100000003
